## **DockPro 5500-X3**

### **3-Color LED Dock Light w/Remote**

**3-Colors**

### **FEATURES & SPECIFICATIONS**

- Great for Docks, Piers, and Slips that may be affected by waves and storm surges
- **(5)** -10W, lights spaced 4 ft apart which covers more than 20 ft. of dock facing. Additional 20 ft. long power-cord which attaches to the LED driver.
- Total light output is 5500 lumens, spread of light depends on mounting height.
- 50W LED Driver - 120VAC input with AC Plug - 36VDC output.
- Switch between Green, Blue, or White light using the included Remote Control.
- 36° Beam Angle illuminates the water in front of the dock, and not the surrounding landscape.
- Light heads simply unplug from power-cord if replacement is ever needed.
- Lights can be adjusted 180° vertically and can be easily removed. Mounting Brackets and Hardware Included for wood or composite docks.
- IP 66 rated - Above Water Use - but these lights can tolerate temporarily submersion. LED driver should be plugged into a ground protected GFCI outlet.
